Kolkata, West Bengal, India

## Summary

Currently, I am a B.Tech Computer Science Engineering student in my third year, fifth semester at Adamas University.

I am passionate about technology and driven by the desire to continuously expand my skills. I am an advanced-level Python developer with a keen interest in Artificial Intelligence and Machine Learning (AIML). Currently, I am fully focused on EDA and machine learning codes using Python, which I am vigorously practicing to update my domain knowledge in AIML. Additionally, day by day growing my competitive coding and problem-solving skills. I am also simultaneously doing and completing various types of projects related to different subjects to broaden my technical horizons.

I am eager to connect with fellow enthusiasts, developers, and mentors who share my passion for technology and are committed to continuous learning. Together, we can collaborate, share insights, and embark on a journey of growth and development in the ever-evolving world of tech. I look forward to connecting with like-minded individuals and creating meaningful learning experiences together!

Let's connect and make a difference in the world of tech!
